Profit Update

July 8, 2008

QMASTOR has continued to perform above expectations and the directors have revised their forecast upwards to 2.0-3.0 cents earnings per share.

Revenue is expected to be close to \$5.0 million dollars for the year which equates to approximately an 85% increase on the previous year.

As previously reported customer demand remains strong with a number of significant tenders presently in progress and a healthy sales pipeline of opportunities out into the future. QMASTOR's current licensing and services order book is in excess of \$10 million.

We have recently started our Perth operations as part of expansion into Western Australia and today announce that QMASTOR will open an office in Mackay in Queensland in the coming weeks.

The Mackay operations will be used to support our growing Queensland customer base, particularly new and existing coal mining and port customers.

The month of June saw us presenting our product suite to the Coal, Iron ore, Nickel, Port and Steel industries both in Australia and overseas. We expect to see this strong demand for our products and services continue into the medium term.

We expect to be able to advise the market of new sales in the coming weeks.

Regards

A handwritten signature in blue ink that reads "T Bagnall".

Trent Bagnall
Managing Director
